

PRODUCT DECLARATION / SAFETY DECLARATION — Asbestshop C263V (FFP3 NR D Respirator)

1. Product Information

- **Product name:** Asbestshop C263V (FFP3 NR D Respirator)
 - **Packaging:** per piece / box of 10 / box of 160
 - **Brand / Supplier:** Asbestshop
 - **Application:** High-efficiency filtering half mask for respiratory protection against hazardous airborne particles, fine dust, non-volatile aerosols and biological agents.
-

2. Product Description

The Asbestshop C263V is a single-use **FFP3 NR D** filtering half mask manufactured from multi-layer high-efficiency filter media and equipped with an exhalation valve for reduced breathing resistance. It provides the highest filtration class under EN 149:2001+A1:2009 and is suitable for use in environments with high concentrations of hazardous particles.

3. Key Features & Properties

- **Classification:** FFP3 NR D
 - **Standards:**
 - EN 149:2001+A1:2009 (Filtering half masks)
 - EU Regulation (EU) 2016/425, Category III PPE
 - **Design:**
 - Multi-layer filter media
 - Exhalation valve
 - Adjustable nose clip
 - Dual elastic head straps
 - Soft inner layer for comfort
 - **Intended use:** Protection against hazardous particulates, including fine dust, aerosols, fibres and biological agents.
-

4. Usage & Handling (Summary)

- Ensure a proper facial seal before entering the work area.
 - Do not use with facial hair that interferes with the seal.
 - Do not reuse — the product is **single-shift (NR)**.
 - If breathing becomes difficult or the mask becomes damaged or contaminated, replace immediately.
 - Always combine with protective clothing, gloves and eye protection when required.
-

5. Health & Safety Information

- The respirator **does not contain asbestos**.
 - Protection depends on correct fit and proper use.
 - Not suitable for oxygen-deficient atmospheres or gases/vapours.
 - Always comply with national safety regulations for hazardous materials.
-

6. Environmental & Waste Disposal

- Store in a clean, dry place.
 - Dispose of after use according to local regulations.
 - If used for asbestos or biohazard work, dispose of as hazardous waste.
-

7. Supplier Declaration

Asbestshop declares that the "Asbestshop C263V (FFP3 NR D)" respirator meets the applicable requirements of EN 149:2001+A1:2009 and Regulation (EU) 2016/425 as a Category III PPE device. When used according to instructions, it is suitable for high-efficiency respiratory protection in hazardous particulate environments.
